GENERAL REGULATIONS

These regulations are completed by the general exhibition regulations, approved by the Ministry of Trade and Industry, which is available to all exhibitors by simple request.

1] GENERAL PROVISIONS

Specifications concerning the organisation of the Exhibition, in particular its opening and closing dates, its location, its opening hours and admission price, are decided by the organiser and may be modified at will. In the event of an extension, exhibitors who request it, may be authorised to close their stands on the date initially agreed, but they may not remove products on display or change the appearance of the stand before the date fixed by the organisers.

The exhibitor will undertake to respect, and make sure that, the measures of the Exhibitor's Manual are respected. The exhibitor is responsible to the organiser for non observance of the schedule of conditions (« le cahier des charges ») established by the owner or the main tenant of the site which has been made available for the Exhibition organiser. The organiser is not liable for any consequences arising from the enforcement of the stipulations of these general regulations.

2] PARTICIPATION

Conditions for participation

The organiser determines the categories of exhibitors and establishes the list of products and/or services exhibited. An exhibitor may present only equipment, products, processes or services manufactured or designed by himself, or for which he is an agent or distributor ; in the latter case, he must attach to his application, the list of brands whose products he intends to exhibit or whose services he intends to present.

After consideration, the organiser may exclude products and/or services which do not appear to him to correspond to the aim of the Exhibition, or allow the presentation of products and/or services which do not appear on the list but which may be of benefit to the Exhibition.

Sales comprising immediate on-site delivery to the buyer are prohibited.

In pursuance of the regulation concerning authorized exhibitions, all exhibitors agree to exhibit only products or equipment in conformity with French regulations, except for products or equipment destined for use exclusively outside French territory. Moreover, all exhibitors agree not to proceed with any advertising liable to induce into error or to constitute unfair competition.

Moreover, it is forbidden for the exhibitor to present on the stands, equipment, goods or advertising items of a brand not exhibited at the Exhibition. (It is also forbidden to present labels with recommendations from associations, unions and groupes, etc.)

Applications

Any person wishing to exhibit must present an application of participation to the organiser. Unless the organiser does not accept the application, the submission thereof shall be a binding and irrevocable undertaking to pay the full price of the stand hire and associated costs.

Control of admissions

The organiser is not obliged to justify his decisions concerning applications. In the event that participation is refused, any sums paid by the party having presented an application of participation, will be repaid, after deduction of administrative expenses incurred by the organiser and which remain due to him. The same provision applies to a party having presented an application of participation placed on the waiting list, to whom a stand cannot be allocated

for lack of available space when the Exhibition opens.

Acceptance of the application is confirmed by the reply from the organiser to the exhibitor. This reply may be in the form of an invoice addressed to the exhibitor.

Despite initial acceptance by the organiser and even after allocation of a stand, an application of participation from an exhibitor whose affairs are, for whatever reason, administered by, or with the assistance of a trustee in bankruptcy, is null and void. This applies particularly to any application by a company filing a petition in bankruptcy between the date of the application and the Exhibition opening date. However, where a company is authorised by a court to continue its operations, the organiser may, of his will, decide to maintain the application.

Assignment / sub-letting

Without the organiser's prior consent in writing, an exhibitor shall not transfer, sub-let or share, with or without payment, all or part of its concession within the Exhibition. Nevertheless, several exhibitors may be granted joint authorisation to make a group presentation, providing each of them should submit a prior request for the approval to the organiser and sign an application for joint-participation.

Withdrawal

In the event of a withdrawal or non-occupation of the stand for whatever reason any sums paid and/or due in whole or in part towards the hire of the stand, shall be retained by the organiser, even if the stand is let again to another exhibitor. An exhibitor shall be deemed to have withdrawn if, for any reason whatsoever he should fail to take possession of his stand the day on which the Exhibition is due to open. The organiser may therefore dispose of the defaulting exhibitor's stand and the latter shall have no right to claim a refund or compensation, even if the stand is allocated to another exhibitor.

3] FINANCIAL CONDITIONS

Price

The price of the stands is determined by the organiser and may be revised if there is a modification to its components, including, but not limited, to variations in the costs of materials, labour, transportation and services as well as tax and social charges.

Payment conditions

The total amount for participation is due after the official notification of acceptance. The amount should be paid in full at the latest, by the time the space is made available. Payment of additional expenses must be made on receipt of the invoice sent by the organiser.

No payment

The non-payment by the due dates of the amount for participation leads to the cancellation of the right to dispose of the space allotted.

4] TIME LIMIT FOR STAND BUILDING AND REMOVAL

Mounting and dismantling

The organiser determines the programme for the building and installation of the stands prior to the opening of the Exhibition. He also fixes dates and times for dismantling the stands, and removing equipment, materials and products as well as dismantling of the site at the end of the Exhibition.

The exhibitors shall not clear their stand nor withdraw any of their items before the end of the event. (Mounting: Saturday 25 May, between 8:00 a.m. and 7:00 p.m., Sunday 26 May, between 8:00 a.m. and 10:00 p.m. and Monday 27 May, between 7:00 a.m. and 0:00 a.m. Dismantling : Thursday 30 May, between 5:30 p.m. and 0:00 a.m. and Friday 31 May, between 8:00 a.m. and 7:00 p.m.) The exhibitor, or his duly accredited representative, is required to be present on the stand from the beginning of dismantling until the stand has been completely cleared. The exhibitors shall make sure that the evacuation of the stands, merchandise, articles and special furnishings are done within the deadlines and times indicated by the organisers. Once the deadline is past the organiser is free to have any objects remaining on the stand transported to a furniture depository of his choice without being liable for the total or partial deterioration, the costs and risks are borne by the exhibitor.

5| CLEANING

The cleaning of the communal areas and the stand floor surfaces will be taken care of by the organisers.

Any request concerning these services must be addressed to the organiser on the appropriate forms made available to exhibitors.

Customs

It is the responsibility of each exhibitor to complete customs formalities for equipment and products arriving from abroad. The organiser cannot be held responsible for any difficulties arising during these formalities.

Intellectual property rights

The exhibitor is responsible for ensuring that any Intellectual Property Rights held in relation to equipment or products which he exhibits are properly protected, in accordance with legal provisions in force (such as a claim for Patent Coverage under French law). Visitors are required to comply with the regulations on safety and public order as laid down by the authorities.

9| SAFETY

The exhibitors are required to read and comply with the safety measures laid down by the Public Authorities or by the organiser. The exhibitor shall be present on his stand at the time of the visit of the Safety Commission.

10| APPLICATION OF THE REGULATION

This applies, specifically, to non conformity of stand fittings, failure to comply with safety regulations, failure to occupy the stand, display of products which do not conform to those stated in the initial application, sale of goods with immediate on-site delivery to the purchaser. An indemnity is then due from the exhibitor as damages and as reparation for moral or material harm suffered by the Exhibition.
